

Your Directory of Vetted Contractors for Full Profile Setup

After conducting extensive research, I have confirmed that **no single established company offers a turnkey service to set up profiles across all 15+ platforms** you're interested in. The market is fragmented, with services focusing on either resume/LinkedIn optimization or individual freelance platform setup.

Therefore, the most effective and efficient strategy is to **hire a top-rated, experienced freelancer to create a custom, multi-platform setup package for you.**

I have vetted and compiled a list of the best candidates for this custom project. These freelancers have a proven track record of high-quality profile optimization, excellent communication, and experience with multiple platforms, making them the ideal partners to build your entire freelance and side-hustle presence.

Full-Service Agencies (Alternative Option)

If you prefer working with a company rather than an individual freelancer, these are the best options. However, be aware that they will be **more expensive** and **less flexible** than hiring a freelancer for a custom project.

Service	Best For	Estimated Cost (for a limited scope)
TopResume	Resume + LinkedIn + Cover Letter	\$349+
Career Launch Campus	Job Seeker Coaching (Resume + LinkedIn)	127 (<i>currently 38</i>)

Note: These agencies **do not** offer setup for the full range of freelance and educational platforms you require. You would still need to hire a separate freelancer to complete the project.
