Momentum Ops Consulting: Service Pricing & ROI Guide

How to Price Your Services and Justify Value to Clients

Pricing Philosophy

Your pricing should reflect three key factors:

1. **Your Expertise:** 5+ years of experience with proven results (35% adoption increases, 40% efficiency gains)
2. **Market Rates:** Salesforce consultants command $100-200+/hour
3. **Client ROI:** Your services should deliver 5-10x return on investment

Golden Rule: Price based on value delivered, not hours worked.

Service Tier Pricing Breakdown

Tier 1: Salesforce Health Check

Price: $2,500(FixedFee) **TimeInvestment: **12 - 15hours **EffectiveHourlyRate: **167-208/hour

What's Included:

- Comprehensive audit of Salesforce instance (4 hours)
- Security and compliance review (2 hours)
- User interviews and pain point analysis (3 hours)
- Detailed report with findings and recommendations (3 hours)

- 90-day optimization roadmap (2 hours)
- 1-hour presentation to stakeholders

Client ROI Justification:

> *"For $2,500, you'llgetaclearroadmapthatcouldsaveyou25,000+$ annually by identifying inefficiencies, security risks, and missed automation opportunities. That's a 10x return in Year 1 alone."*

When to Offer Discount:

- Beta clients: $1,500-2,000
- Referrals: $2,000
- Bundle with Tier 2: $2,000 (when purchased together)

Tier 2: Workflow Automation Sprint

Price: $7,500(ProjectFee)**TimeInvestment:**30-35hoursover4weeks**EffectiveHourlyRate:**214-250/hour

What's Included:

- Discovery and requirements gathering (6 hours)
- Workflow design and documentation (8 hours)
- Salesforce configuration and automation build (12 hours)
- Testing and refinement (4 hours)
- User training and documentation (4 hours)
- 30-day post-launch support (2 hours)

Client ROI Justification:

> *"If your team spends 10 hours/week on manual processes, and we automate 80% of that, you'll save 416 hours/year. At $50/hourloadedcost, that's20,800$ in annual savings—nearly 3x your investment."*

Pricing Variations:

- Simple workflow (e.g., lead assignment): $5,000

- Complex workflow (e.g., multi-step approval): $10,000
- Multiple workflows (2-3): $12,000-15,000

Tier 3: Salesforce Optimization Project

Price: $15,000-30,000$ (Project-Based)
Time Investment: 60-120 hours over 6-10 weeks
Effective Hourly Rate: $250/hour

What's Included:

- Full system audit and data cleanup (15-20 hours)
- User role and permission optimization (8-10 hours)
- Custom dashboard and report creation (12-15 hours)
- Workflow automation (20-30 hours)
- Data migration and integration (10-20 hours)
- Training and change management (10-15 hours)
- 60-day post-launch support (5-10 hours)

Pricing Framework:

- **$15,000:** Small org (1-50 users), basic optimization
- **$22,500:** Mid-size org (50-150 users), moderate complexity
- **$30,000:** Larger org (150-250 users), high complexity

Client ROI Justification:

> *"Companies that fully optimize their Salesforce see an average 25-35% increase in productivity and 20-30% improvement in revenue retention. For a $10M company, a$5 500,000—making this a 16x return on investment."*

Tier 4: Full Salesforce & CLM Implementation

Price: $30,000-60,000+ (Project-Based)
Time Investment: 120-250+ hours over 3-6 months
Effective Hourly Rate: $250/hour

What's Included:

- Discovery and requirements gathering (15-20 hours)
- System architecture and design (20-25 hours)
- Salesforce configuration and customization (40-60 hours)
- CLM system implementation (DocuSign, Ironclad) (30-40 hours)
- Data migration from legacy systems (20-30 hours)
- Integration with other tools (ERP, marketing automation) (15-25 hours)
- User training and change management (15-20 hours)
- 90-day post-launch support (10-15 hours)

Pricing Framework:

- **$30,000:** Basic implementation, minimal customization
- **$45,000:** Standard implementation with CLM integration
- **$60,000+:** Complex implementation with multiple integrations

Client ROI Justification:

> *"A full Salesforce and CLM implementation can reduce contract processing time by 30-40% and improve renewal rates by 25%. For a company processing 500 contracts/year, this translates to $100,000+ in annual savings and revenue gains—a 2x return in Year 1."*

Tier 5: Strategic Advising & Support (Retainer)

Price: $2,000-5,000$/month
Time Investment: 10-25 hours/month
Effective Hourly Rate: $200/hour

What's Included:

- Monthly strategy session (2 hours)
- On-demand support and troubleshooting (4-10 hours)
- New feature implementation (2-8 hours)
- Performance monitoring and optimization (2-4 hours)

- Priority email/Slack support

Pricing Framework:

- **$2,000/month:** 10 hours, basic support
- **$3,500/month:** 17-18 hours, standard support
- **$5,000/month:** 25 hours, premium support

Client ROI Justification:

> *"Having a dedicated Salesforce expert on retainer ensures your system evolves with your business. The cost of a single bad hire or major system issue far exceeds the annual investment of $24,000-60,000."*

Pricing Negotiation Framework

When a Client Says "That's Too Expensive"

Response Strategy:

1. **Acknowledge:** "I understand budget is a concern."
2. **Reframe:** "Let's look at this as an investment, not an expense."
3. **Quantify ROI:** "If we can save your team 15 hours/week, that's $39,000/year in productivity gains."
4. **Offer Alternatives:** "We could start with a Health Check to identify the highest-impact areas."

Payment Terms Options

Standard:

- 50% upfront, 50% on completion

For Larger Projects:

- 33% upfront, 33% at midpoint, 34% on completion

For Retainers:

- Monthly billing on the 1st of each month
- 30-day cancellation notice required

ROI Calculator for Clients

Use this simple framework to justify your pricing in proposals:

Example: Workflow Automation Sprint ($7,500)

Metric	Before	After	Annual Savings
Hours/week on manual process	10 hours	2 hours	416 hours saved
Loaded cost per hour	$50	$50	**$20,800**
Error rate	5%	0.5%	Reduced rework
Customer satisfaction	75%	90%	Improved retention

ROI: 277% in Year 1

Competitive Pricing Comparison

Provider Type	Hourly Rate	Project Rate (Similar to Tier 3)	Your Advantage
Large Consultancies	$200-400/hour	$50,000-100,000	You're 40-60% less expensive
Boutique Firms	$150-250/hour	$30,000-60,000	Comparable, but you offer more personalized service
Freelancers	$75-150/hour	$15,000-30,000	You offer more strategic value and reliability
Momentum Ops	$200-250/hour	$15,000-30,000	**Best value: Strategic + Affordable**

When to Raise Your Rates

Indicators It's Time:

- You're booked 4+ weeks in advance
- You're turning down projects due to capacity
- You have 3+ strong testimonials
- You've completed 10+ successful projects

How Much to Raise:

- Year 1 → Year 2: 10-15% increase
- Year 2 → Year 3: 15-20% increase
- Existing retainer clients: Grandfather for 6-12 months, then increase

---

Pricing Confidence Script

When presenting pricing to a prospect:

> *"Based on my assessment of your needs, I recommend [Service Tier]. The investment is [Price], which includes [key deliverables]. Based on similar projects, clients typically see [specific ROI metric] within [timeframe]. This represents a [X]x return on your investment. Does this align with your budget and expected outcomes?"*

If they hesitate:

> *"I understand this is a significant investment. What specific outcomes would make this project a success for you? Let's work backward from there to ensure we're aligned on value."*

Bonus: Value-Based Pricing for Advanced Clients

Once you have a strong track record, consider value-based pricing for high-impact projects:

Example:

- Client expects $500,000 in additional revenue from your Salesforce optimization
- You charge 10-20% of expected first-year value: **$50,000-100,000**
- This requires strong trust and clear success metrics

Remember: You're not selling hours. You're selling transformation, efficiency, and growth. Price accordingly.
